Innovative colour solutions that fit your budget.

While most colour machines are just beginning to copy and print with the same machine, the Lexmark X750e MFP provides colour copying, colour printing, colour scanning and faxing at an incomparable price point! With its fast 20 pages-per-minute engine, the X750e MFP may be the only device your organization needs. In addition to its colour and duplexing capabilities, the Lexmark X750e MFP also provides a lower cost per page than most monochrome printers.

Leverage your corporate network security.

The Lexmark X750e MFP features a built-in corporate security option to help prevent unsolicited scanned e-mails to anyone in your organization. With this feature enabled, users must log into the network through the color touch-screen to utilize the scanning features, which will automatically add the user's e-mail address.

Save money with scanning.

Think of the money you can save by eliminating long distance fax charges by scanning directly to e-mail! The Lexmark X750e MFP adds easy-to-use colour scanning features to your workplace. The intuitive touch-screen allows you to search for an e-mail address in an online corporate directory or manually enter an address, subject and message.

Realize increased productivity via electronic document automation.

The Lexmark X750e MFP also works with Lexmark Document Distributor software, allowing you to implement customized document workflow solutions. Lexmark Document Distributor eliminates many manual, time-consuming workflow processes by automating your most complex document-based tasks. Robust routing, indexing and archiving capabilities are achieved with simplicity and accuracy. What's more, using the robust network scanning capabilities of Lexmark multifunction systems in conjunction with Kofax Image Products' revolutionary new Ascent Ricochet software, your people will be able to capture, review, index and insert document images into your EDMS or workflow environment.
